Desk Height Range

The Freedom Lite system uses electric height adjustable actuators that provide height adjustment of 710-1210mm (incl. desk top), and the system will accommodate rectangular desktops ranging in width from 1200mm up to 1800mm and in depth from 600mm - 800mm. The radial desk components allow the creation of desktop sizes from 1400mm - 1800mm and returns from 1200mm to 1600 long.
